

Please forward the following letter to the sponsors of the Iqbal and Shelby Mamdami Scholarship:

Dear Sir/Madam,

I thank you for the financial sponsorship of my tertiary education. You have made the realization of my dreams a reality. My primary interest lies in the field of International Relations and Political Science, in which I will explore the wellbeing of the international community at John Cabot University in hopes of expediting my dreams of becoming an international diplomat and changing the world. Using the skills of consensus-building, control of debate, and skills of oration I plan to be a humble leader that takes into account the socioeconomic wellbeing of the world. The time to end hatred, suffering, and inequality has arisen and it is my goal to pacify all of the aforementioned issues through the exploration of college education that focuses on the relations of the international community. While my family's economic instability proves to be my biggest setback you have aided in the counteraction of this hindrance has guided me to a brighter future; with this, you have inspired me to create better educational opportunities for students both like me and those less fortunate than me.

Thank You for your continued consideration and support.

p.s. Attached are my acceptance letter, student ID, contact information for the college, and the original copy of the award

Best Regards,

Phendli G. Proux  
Winner of the 2013-2014 Iqbal and Shelby Mamdami Scholarship
